# Decentralized Training Series - Workshop: Certified Ethereum Specialist

Powered by UNIC & ITI/CERTH

dts.decentralized.com

Philosophy

- The Decentralized Training Series (DTS) aims to provide in-depth, hands-on training on distributed ledger technologies, targeted to software developers and business people alike.

- Each Workshop in the Series focuses on a specialised topic related to the evolution of the distributed ledger technology, its potential impact, limitations and future directions.

- Community building – bridging the gap in the lack of certified training knowledge.

Prior Experience

No prior experience is required for Day 1.

For Day 2, participants should have a basic understanding of software development principles in any programming language. Familiarity with Javascript is also recommended.

- Bring a laptop for Day 2

What happens after the Workshop?

◤ After the workshop we encourage participants to continue learning, coding and exploring the capabilities offered by the Ethereum platform.

◤ To support participants, we are providing additional help and guidance after the workshop for a month, so that participants can ask further questions in relation to Solidity development, and the deployment of Ethereum Smart Contracts.

◤ Register to our Slack channel: https://bit.ly/2Adce1K

What you will receive?

- Attendees to the first Thematic Unit of the Workshop (Day 1) will receive a *Digital Certificate of Attendance*. Participants that complete the entire two-day workshop along with the experimentation and development of the dApp case-study will be awarded a *Certificate of Completion – Ethereum Developer.*

- **All certificates issued are self-verifiable on the Bitcoin blockchain. No certificate will be issued to participants that do not satisfy the stipulated requirements for the award of a certificate.

DTSToken

- Register for the Airdrop
  - https://bit.ly/2A1eI1K

- This token is used for community building around the series of DTS Workshops.

- The token will be used within the community:
  - to redeem discounts;
  - for group registrations;
  - for voting rights for future events;
  - for various promotional offers; and,
  - as a medium of further experimentation from the community.
